## DETAILED PROGRAM OF THE TOUR (Day-by-Day)

### DAY 1 - LAKE COMO

Benvenuti in Italia, welcome to Italy!

The magnificent scenery of Lake Como (also known as "Lario") has enchanted artists and travellers for centuries: from French novelist Flaubert to musicians of the calibre of Gioacchino Rossini, Giuseppe Verdi, and Vincenzo Bellini; it was here that he composed his opera Norma. Today Lake Como continues to attract members of the international jet-set and celebrities who appreciate the Lake's evocative beauty and surroundings.

The Lake (one of Lombardy's several incomparable lakes) is of a characteristic upside-down Y-form. The town of **Como** is situated on its southwestern arm, **Lecco** on the southeastern arm, and **Colico** on that northern. From the Lake's shores, one can enjoy multiple, fascinating views: suggestive borgoes, splendid villas and lush gardens await visitors in search of a bit of charm and relaxation or a little culture and contact with nature.

Breathtaking villas, one after the other, encircle the lake, a resort destination of the nobles of Lombardy since the 16<sup>th</sup> century. Cernobbio is the site of **Villa d'Este** (1600s), the location of Alfred Hitchcock's celebrated film "The Pleasure Garden", and of **Villa Erba**, one of the most important

Italian lake villas from the 1800s - today it is an internationally-known convention and expository complex. In nearby Lenno, you will not miss **Villa Balbianello**, where “Star Wars: Episode II” and James Bond’s “Casino Royale” were shot. You’ll be amazed by its gardens, a perfect scenery for movie lovers.

Along the coast is Tremezzo, famous for its **Villa Carlotta**, with terrace gardens and a museum boasting works by Canova, Thorvaldsen, and Hayez. It was built in the 17<sup>th</sup> century for a powerful Milanese family. In the second half of the 19<sup>th</sup> century, Princess Marianne of Nassau bought the villa and gave it to her daughter Carlotta as a wedding present, hence the name. Her husband was a keen botanist and, over the years, turned it into the lush garden that we see here today.

Where the Lake’s three arms meet, you will visit **Bellagio** and **Villa Melzi**. The Villa, built in 1808, is much sought-after for its botanical park, with sculptures and a garden renowned for its beautiful azaleas and rhododendrons.

## DAY 2 - LAKE MAGGIORE

It has the magnificent vintage air of old-fashioned vacations, but it never goes out of style. Lake Maggiore is the second largest in Italy in size (the biggest is Lake Garda) but the largest—that’s why it’s called Maggiore—of the lakes closest to the Alps. Geographically, it straddles two Italian regions, Lombardy and Piedmont, and a small part juts into Switzerland’s Canton Ticino.

Since the 19<sup>th</sup> century, Lake Maggiore has been one of the top vacation and weekend destinations for wealthy families from big cities, who built some of Northern Italy’s most stunning villas on its shores. The secret to Lake Maggiore’s success is its position just under Mount Rosa, a varied landscape, easy accessibility from both Milan and Piedmont, and a climate that allows very distinctive vegetation to thrive. The blossoming of azaleas, rhododendrons, camellias, lemons and magnolias in spring rightfully attract plant lovers.

The jewels of the lake are the **Borromean Islands**: anyone who has seen a postcard of Lake Maggiore is familiar with their outline. The archipelago is one of the biggest attractions for travellers, and Isola Bella, Isola Madre and Isola dei Pescatori have plenty of charm. The archipelago is named after the Borromeo family, which acquired the islands in the 14<sup>th</sup> century and still owns two of them. The noble palaces on the islands, with their rooms filled with antique furniture, paintings and priceless porcelain, and the enchanting gardens are open to visitors and are a must on your list of things to see.

## DAY 3 – PARMA

Parma is known for its delicious food products. First, you will visit a **Parmigiano Reggiano** factory, where you will see cheese masters at work: an extraordinary way to get into the area’s production culture and discover how a true gastronomic gem is made (more about Parmesan cheese in our [BLOG](#)).

Later on, time for a visit to a **Parma ham** factory, where you will learn the secrets of the most delicious ham, Prosciutto di Parma (to know more about raw ham in Italy, read the [article](#) in our **BLOG**).

And finally, you will savour authentic Italian cuisine in a fun-filled [cooking class](#) led by a local “**rezdora**” (a female cook in the Parmesan language). Immerse yourself into the tradition of fresh Italian pasta and study the secrets of preparing pasta dough from scratch, using just flour and eggs. You will make your own “Tortelli d’erbetta” (Parma most traditional pasta with a filling of ricotta cheese and

chards) and delicious tagliatelle with tomato sauce – all local ingredients! Once your fantastic meal is ready, you will enjoy what you prepared matched with a glass of local Lambrusco wine. A very tasty experience at the end of an unforgettable day!

## DAY 4 – MODENA

Modena is renowned worldwide for famous people - Enzo Ferrari and Luciano Pavarotti above all - who were born and lived here and for some of its gastronomical products. The city lies in the so-called “Motor Valley”: the factories of the famous Italian sports car makers Ferrari, De Tomaso, Lamborghini and Maserati are located here.

In Maranello, you will visit **Museo Ferrari**, not just a collection of the past, but an extraordinary experience of the world of Ferrari and sports car racing! How exciting to see the most beautiful cars in the world, exceptional artworks made by modern mechanic artisan masters.

Afterwards, you will move to the estate of a **Balsamic Vinegar of Modena Producer** to delight in the unique, enticing taste of traditional balsamic vinegar. Balsamic Vinegar of Modena is obtained from partially fermented, cooked and concentrated grape

must. The grapes come exclusively from the area's vines, and the most critical processing phase is refinement, inside containers of fine wood, such as oak, chestnut, oak, mulberry and juniper. Want to know more about this unique delicacy? Read the [article](#) in our **BLOG**.

## DAY 5 - CHIANTI

Only a few regions can offer such a beautiful and rich panorama as Chianti: green hills sketched by miles and miles of vineyards and olive groves, ancient walled villages, panoramic curvy roads. Chianti Classico spreads from Florence to Siena and includes the municipalities of Greve, Panzano, Radda, Gaiole and Castellina. Most of the route consists of roads connecting larger towns to villages and castles, like the one leading to **Radda**, former headquarters of the Chianti Military League, and then to **Castello di Brolio** where Bettino Ricasoli devised the “recipe” for Chianti wine.

For lunch, you may stop at the famous “**Macelleria Cecchini**”, maybe the most famous meat shop in Italy. Next

to the shop, Mr Cecchini cooks the original Tuscan meat, above all “Fiorentina” steaks, he has personally selected at farms in the area (don't worry, there's also a vegetarian menu).

## DAY 6 – SAN GIMIGNANO & VOLTERRA

In the morning, you will stroll with your head upwards along the streets of one of the most beautiful cities in Tuscany, San Gimignano, also known as the “Medieval Manhattan”, thanks to its old and impressive 14 towers that dominate the town skyline. Originally the towers were 72, built by patrician families probably to demonstrate their wealth and power. Seven of San Gimignano's towers are around Piazza del Duomo; the tallest one is **Torre Grossa**, 54 meters high, dating back to 1298.

Not far from San Gimignano is Volterra, Tuscany's oldest continuously inhabited town, with settlements documented since 1,500 B.C. It's, therefore, an excellent way to know not only about Volterra's history but also about Tuscany as a whole. Here, you will see **Piazza dei Priori**, the main square, the centre of civic power since the 8<sup>th</sup> century, Porta all'Arco, the 4<sup>th</sup> century B.C. Etruscan gate to the city walls and the ruins of the **Roman Theater** (40 B.C.).

**Alabaster** is a soft stone, much easier to work than marble, which is far harder. This malleability makes it perfect for carving small sculptures and richly detailed ornamental motifs. Although it no longer represents a significant part of the local economy, it is nonetheless a fundamental part of Volterra's culture. You will visit a laboratory and find beautiful shops selling artefacts and unique handmade pieces carved into this semi-transparent stone.

On the way to Val d'Orcia, you will take a diversion to one of the most fascinating spots of Tuscany. Here you are in Chiusdino, to see the famous **Abbey of San Galgano**. What a stunning place! Dating back to 1218, the Abbey was considerably wealthy until the 14<sup>th</sup> century, so much as to be disputed between the Papacy and the Republic of Siena. Unfortunately, a remarkable decline followed so much splendour: local people used it as a warehouse of building materials, even selling the roof of lead to make ammunition and transforming it into what we see today. It is really impressive for those who see it for the first time, due to its isolation and to the absence of the roof. Finding yourself inside a church and having the sky as a cover is not common, and when the evening comes, the stars offer a fantastic show. Very close to it, inside the chapel of the hermitage of Montesiepi, also called "Rotonda" because of the circular shape of the central structure, an old iron sword is encased in stone, a clear reference to the legend of Excalibur, the mythic sword of King Arthur!

## DAY 7 – VAL D'ORCIA

Val d'Orcia is one of the most fascinating places in Italy, included by UNESCO in the list of World Heritage Sites. Its landscape is a part of the agricultural hinterland of Siena, redrawn and developed when it was integrated into the city-state's territory in the 14<sup>th</sup> and 15<sup>th</sup> centuries to reflect an idealized model of good governance and create an aesthetically pleasing picture. The landscape's distinctive aesthetics, flat chalk plains out of which rise almost conical hills with fortified settlements on top, inspired many artists. Their images have come to exemplify the beauty of well-managed Renaissance agricultural landscapes.

In **Montepulciano**, our friend Francesca will lead you to discover this beautiful town full of stories, legends and thousand flavours, introducing you to the excellent products of this unique land: olive oil, pecorino cheese and red wine.

In the afternoon, you will visit **Bagno Vignoni**, a tiny and charming village where the main square is a pool 49 meters long and 29 wide. Several hot springs, whose therapeutic quality have been renowned since antiquity, bubble up from its bottom! All this creates such a pleasant sensation; it will be hard to leave!

## DAY 8 – ASSISI

Today you will explore Assisi, the birthplace of St. Francis, the nobleman who renounced all his possessions to devote his life to helping the needy and became the most acclaimed Saint of the Catholic Church.

The splendid **Basilica**, one of the emblems of Christianity, located on Mount Subasio and overlooking the entire valley, is dedicated to him. Apart from being a solid appeal for millions of religious believers, the Basilica is a monument of great artistic value. The construction of the Basilica began two years after his death, in 1228. Between the end of the 13<sup>th</sup> and the beginning of the 14<sup>th</sup> century, the Basilica's walls were frescoed by the best artists of that time: Giotto, Cimabue, Simone Martini and Pietro Lorenzetti. St. Francis's Basilica consists of two churches laid upon each other and a crypt containing the tomb of the Saint. With a double front portal, the Lower Basilica presents a simple facade embellished with a rose window and a mosaic. The interior is decorated with frescoes by some of the most important painters from 1200 to 1300, from Cimabue to Giotto, from the Lorenzettis to Simone Martini.

In the **Upper Basilica**, you will admire the frescos of the life of St. Francis painted by Giotto, the Old and New Testament stories covering the entire nave, and other beautiful frescoes by Cimabue and Torriti.

Another figure who profoundly influenced these places is Saint Clare, to whom the homonymous **Basilica** – with a facade made of white and pink stone and divided into three sections by horizontal cornices - is dedicated. The interior frescoes and the remains of the Saint are visible through a window in the crypt.

Try to enjoy the mystical atmosphere of Assisi:

"Be praised, my Lord, through our sister Mother Earth,

Who feeds us and rules us,

And produces various fruits with coloured flowers and herbs."

(St. Francis, Prayer of the Canticle of the Creatures)

## DAY 9 – TREVÌ & DERUTA

In Trevi, at a local estate overlooking the valley between Assisi and Spoleto, you will enjoy the unique excitement of a truffle hunt with a local expert and his faithful dog, learning about the special connection of ancient woods, people and animals. After the search, time for a gourmet lunch with the extraordinary fruits of this extraordinary land, "**i tartufi**".

Then, you'll head for **Deruta**, famous for its splendid brightly coloured maiolica. The production of ceramics in Deruta goes back to the 13<sup>th</sup> century. In those times, small "bottegas" produced objects of everyday use: jugs, bowls, basins. Maiolica reached its apex in the 16<sup>th</sup> century, with artists making various motifs, such as mythological figures, battles and religious scenes.

At dinner, enjoy “salumi di cinghiale o cervo” (boar or deer sausage) and pecorino cheese, and taste the region's prized white truffle oil while sipping the red Rubesco Riserva or Sagrantino di Montefalco.

## DAY 10 – SPOLETO

Umbria is the greenest region of Italy, and its citizens are famous for their hospitality. On the way to Orvieto, you will stop in **Spoletto**, a medieval hill town in the Umbria region, famous for its summer music festival, “Festival dei Due Mondi”. Thick walls and a magnificent gorge surround the city, and fine medieval and Roman monuments sit along the streets. The Duomo is one of Spoleto's most pleasing sights: dating back to the 12<sup>th</sup> century, the Cathedral is set against a backdrop of hills and valleys. The Rocca is high above the town, a Papal fortress used as a prison until the 1980s. A massive bridge, Ponte delle Torri, built in the 14<sup>th</sup> century, functioned as a bridge and aqueduct; we can walk on it for breathtaking views of the valley and gorge below.

You will have lunch in Spoleto; you can try a typical Spoleto food, “**torta al testo**” (bread prepared with water, flour, salt, pepper, and olive oil, and cooked on a particular marble stone in a wood-burning oven); sometimes it is stuffed with ham, sausage, or simply with herbs prepared in olive oil.

## DAY 11 – ORVIETO & CIVITA

**Orvieto** in Umbria is perhaps the most beautiful hill town in Italy, perched upon a volcanic rock, its history dating back to the Etruscans.

Although just an hour from Rome, the architecture is different, with many buildings constructed out of tufo, a type of volcanic rock. Orvieto's main attraction is its 14<sup>th</sup>-century **Cathedral** – a masterpiece of Gothic architecture with a glistening façade of stained glass, mosaics and sculptures. Another attraction is St. Patrick's Well, a 62-meter-deep (203 feet) feat of engineering characterized by two spiral staircases that wind around the well (yet never meet), with 248 steps down to the water. A pleasant guided tour along a straightforward route makes it possible to get to know Orvieto's underground world, created by its ancient inhabitants over about 2,500 years of uninterrupted digging. A tour to discover a millenary, surprising and unexpected “Underground City”, you will surely enjoy it!

**Civita di Bagnoregio**, the spectacular “borgo” slowly sliding towards the valley, is also known as the “Dying City”. The town is famous for its unique position atop a plateau of friable volcanic tuff overlooking the Tiber river valley. It is in constant danger of destruction as the edges of the plateau collapse due to erosion, leaving the buildings to crumble as their underlying support falls away.

## DAY 12 – TIVOLI

At the end of this extraordinary tour, you will discover one of Italy’s hidden gems! Here is Tivoli, a small town in Lazio, about 30 Km east of Rome. The first significant sight is **Hadrian’s Villa**: Emperor Hadrian built it to escape the crowd and turmoil of the capital. Much of the enormous, luxurious ancient villa remains intact today, and you will be surprised by the innovative application of Renaissance plumbing in the fountains and waterworks, perfectly integrated with the landscape.

The other masterpiece in the area is **Villa d’Este**, the great Villa commissioned by Cardinal Ippolito of the Este family around 1560. Among the masterpieces of the Italian Renaissance that most inspired landscape architects and painters, it is an ideal reinterpretation - in a sumptuous way - of the hanging Eden of Babylon. The prestigious residence is surrounded by terraces, stairways and avenues set on each other, decorated with water games so audacious to reveal considerable engineering skills. The monument was elected the most beautiful park in Europe and UNESCO Heritage with the motivation: "one of the first gardens of wonders, which from the beginning had a decisive influence on the development of European landscape painting ».

The tour is over, but the memories of a fantastic journey will accompany you for a lifetime!
